

You know where, we know how

Highly valuable and oversized woodwork for a highly prestigious project in Dharan / Saudi Arabia

1,750 cbm of wooden columns with measurements of 28 x 2.8 x 2.3 m and piece weights up to 30ts have been delivered from Germany to Damman / Saudi Arabia.

The complete off-loading at Damman port and the forecast of the delivery process in Saudi Arabia to the site, incl. road/-site survey and dry run has been personally coordinated and monitored.

After on-carriage on an always changing road infrastructure, the cargo arrived safely at the site, which was documented by TV Discovery Channel.

Premium logistics for premium cargo.
